ANNUAL
REPORT
2018

PROMOTING PUBLIC CONFIDENCE

DELIVERING ON STAKEHOLDER EXPECTATIONS

ABOUT THE DIC

The Deposit Insurance Corporation (DIC) was established by the Central Bank and Financial Institutions (Non-Banking) (Amendment) Act, 1986 which amended the Central Bank Act Chapter 79:02.

The DIC insures depositors of deposit-taking institutions licensed to operate under the Financial Institutions Act, 2008. Deposit insurance is payable to depositors only when an institution has been closed as a result of action taken by the Central Bank of Trinidad and Tobago.

Depositors in all licensed financial institutions are insured up to a maximum of TT \$125,000. Only deposits held in Trinidad and Tobago and payable in Trinidad and Tobago dollars are insured.

The DIC is supported by contributions and annual premiums levied on licensed member institutions. While the Corporation is empowered to borrow, special premiums can also be levied on all member institutions should the demand on the Fund exceed its resources.

As a participant in the financial safety net, the Deposit Insurance Corporation has contributed to rebuilding confidence in Trinidad and Tobago's financial institutions and the financial system since the difficulties of 1986. The Financial Institutions Act, 2008, and other improvements in the system of inspection and supervision of licensed financial institutions have also contributed to the reduction in the risk of failure.

VISION

To be a dynamic contributor to the financial sector safety net.

MISSION

To promote public confidence in the banking system by:

- *Protecting insured deposits up to the prescribed limit*
- *Effective fund management; and*
- *Facilitating the resolution of insolvent and distressed institutions.*

CHAIRMAN'S MESSAGE

The financial year 2017/18 marked an important milestone in the work of the Deposit Insurance Corporation as well as a reaffirmation of our mandate in the launch of our new 5 Year Strategic Plan. Our clear guiding light is encapsulated in our core mission:

"To promote public confidence in the banking system by:

- protecting insured deposits up to the prescribed limit;*
- effective fund management; and*
- facilitating the resolution of insolvent and distressed institutions."*

In this regard we can proudly say that in 2017/2018 the DIC has succeeded on all fronts. With respect to fund management the performance of the DIC has been very creditable. As a result of a careful and thoughtful investment strategy, the Fund now stands at \$3,302 million, an increase of 8% over the previous year. This is indeed laudable given the challenging economic conditions of the period; in balancing our objectives of strong returns, reasonable risk and appropriate maturities, we modified our investment strategy over the course of the year in the context of the limited investment opportunities available.

The consistent growth of the Fund underpins our capacity to protect depositors. In 2017/18 the health of the domestic financial system meant that the DIC was not called upon to provide insurance settlements to depositors, but we recognize that we must be continuously poised to deal with such circumstances. As a result, staff members took active part in training, conferences and dialogue with domestic and international counterparts to shore up our analytical capacity, adopt international best practices and strengthen our response capability.

The DIC also recorded significant success on the resolution front during the year. After several years of involvement in the extremely complex liquidation of the Clico Investment Bank (CIB), the DIC made the first interim dividend distribution to creditors in April 2018 - at an impressive 50 cents on the dollar. The assets involved in this distribution formed the backbone of the

Dr. Alvin Hilaire

CHAIRMAN

Central Government's launch of the National Investment Fund in August. This achievement represents excellent progress in the delivery of our responsibilities regarding the CIB liquidation. It has taken place in the context of a network of supporting activities: securing and monetizing the assets, an intense effort to settle various loans on CIB's books, the establishment of a process for asset disposal, and the initiation of several legal actions to assist in the sale of properties owned by CIB.

Internally, the DIC has continued its drive towards institutional strengthening, particularly in the area of corporate governance. This is critical given that the deposit insurance system is a key component of the national financial stability framework, with a major role to play in public confidence.

Significant emphasis was placed on formalizing policies, procedures and controls, risk management and follow-through on the findings of internal audits. This has been supported by bolstering documentation and record-keeping, as well as our reporting function, to ensure that we are both transparent and accountable to our stakeholders. Complementing these initiatives has been the implementation of the DIC's new Business Continuity Plan, which includes the establishment of two disaster recovery sites and the installation of IT servers for IPS/LMS Application. At the same time, the physical facilities and health and safety standards at DIC are being progressively enhanced.

The success of the DIC over the year could not have been achieved without its dedicated management and staff and I wish to record my tremendous appreciation for their high quality work throughout the year.

The Strategic Plan for 2018-2023 lays out an ambitious agenda on the two pillars of Enhancing Protection Capability and Institutional strengthening – people and

process; and the management and staff will be called upon to execute the projects successfully. I have all confidence that they will rise to the challenge. We also look forward to deepening our engagement with our member institutions and other domestic and regional institutions as we continue to build the financial safety net for Trinidad and Tobago.

**“The success of
the DIC over the
year could not have
been achieved
without its dedicated
management and
staff and I wish to
record my tremendous
appreciation for their
high quality work
throughout the year.”**

DIRECTORS' PROFILES

Dr. Alvin Hilaire

CHAIRMAN

Dr. Alvin Hilaire is a career Central Banker, having worked with the Central Bank of Trinidad and Tobago for a cumulative period of approximately twenty (20) years. He was appointed Governor and Chairman of the Board of the Central Bank of Trinidad and Tobago on December 23, 2015 for a term of five years. Prior to this appointment he has held positions of Senior Economist, Chief Economist and Director of Research and Deputy Governor. Dr. Hilaire has extensive experience in macroeconomic policy development and implementation and monetary policy matters.

Within the region, Dr. Hilaire has made significant contributions to developing the economies of small vulnerable CARICOM countries through his work as Chairman of the CARICOM Development Fund, where he was influential in increasing financial assistance to these islands.

Dr. Hilaire is also well respected internationally, having spent eleven (11) years at the International Monetary Fund (IMF), serving as a Senior Economist and as the IMF Resident Representative to Guinea and Sierra Leone. He has worked on IMF financial programmes in several other countries, including Croatia, Colombia, Cameroon, Ecuador and Nicaragua.

Dr. Hilaire holds a Doctor of Philosophy in Economics from Columbia University in New York and graduated with First Class Honours from the University of the West Indies, St. Augustine, Trinidad.

Kendall Cuffy

DIRECTOR

Appointment effective February 20, 2018

Kendall Cuffy is the Manager of Banks and Non-Banks Supervision at the Central Bank of Trinidad and Tobago, where he has been employed for a total of 14 years. Prior to his current role, Mr. Cuffy held managerial positions at commercial banks in Barbados and spent over fifteen years in the commercial banking sector in Trinidad and Tobago. In his current role at the Central Bank, Mr. Cuffy is responsible for leading a team of examiners in ensuring the safety and soundness of financial institutions in the banking sector. His experience also extends to policy development and insurance supervision. He is a graduate of The University of the West Indies (UWI) (Management Studies, Upper 2nd Class Honours) with a minor in Accounting. He also holds a master's degree in Business Administration from Henley Management College in the United Kingdom, where he placed first in his graduating class. Outside of the corporate world, Mr. Cuffy has served as President of the Tennis Association of Trinidad and Tobago over the period 2013 – 2016 and previously represented the country in the sport at the junior level.

Hayden Manzano

DIRECTOR

Mr. Manzano, an experienced public finance professional, has served with the Ministry of Finance, since 1995. He is currently Director, Economic Research and Policy Coordination of the Ministry of Finance, where he manages the Research Unit of the Investments Division which entails planning, organizing and directing the functions of the Research Unit; Preparing regular reviews of the Economy as it relates to the State Enterprises Sector; Reviewing the economic performance of the State Enterprises Investment Programme; Ensuring the adherence of the tenets of the State Enterprises Performance and Monitoring Manual (SEPMM) as it relates to established Reporting Procedures and Governance; Ensuring the proper creation, development and maintenance of systems for the collection, storage and retrieval of research data and reports of the State Enterprises Sector and Assisting in the installment of Boards and Committees for State Entities.

Mr. Manzano holds an MPA in International and Public Affairs (Economic Policy Management) from Columbia University in the City of New York; a BSc. (Hons) in Economics and Management from the University of the West Indies and a Diploma in Tourism Planning and Development from Galilee College, Israel. He has received extensive training in Macroeconomics, Fiscal and Debt Management, and Trade Policy from the World Bank, Columbia University, and the IMF Institute. He has conducted research in Economic Growth, Fiscal Policy, Wage Determination and Inflation for both Academia and Public Policy Development.

Dexter Jaggernaut

DIRECTOR

Deeply versed in financial and economic analysis, Mr. Dexter Jaggernaut is the Programme Manager, Strategic Management and Execution Office, Ministry of Finance, providing support for initiatives including the implementation of Property Tax, activities related to the creation of the Trinidad and Tobago Revenue Authority and formulation of the National Budget.

Previous to this he worked with the Caribbean Development Bank (CDB) in Barbados, as Project Operations Analyst, assessing and supervising institutional aspects of economic infrastructure projects in Caribbean member countries.

As a Trinidad and Tobago representative in the World Bank's Voice Secondment Program, Mr. Jaggernaut worked in the World Bank's Financial Management Unit, where he assisted in improving audit controls for World Bank projects including Electricity and Water Projects across Sub Sahara Africa as part of the overall Governance and Anti-corruption Agenda.

He has also participated at the IMF in Financial Programming and Policy, including analysis of Real, Monetary, Fiscal and External Sectors of a country entering financial crisis, developing strategies to reverse the effect of the crisis.

Mr. Jaggernaut holds a B.Sc. in Economics, (Upper Second Class Honours) from the University of the West Indies, and a Masters of Business Administration from Edinburgh Business School, U.K. He is a Chartered Certified Accountant by profession and a Fellow of the Association of Chartered Certified Accountants (FCCA), U.K. His training includes the McGill Executive Certificate Program in International Development and Risk Management Training from the Caribbean Development Bank.

Naveen Lalla

DIRECTOR

(Expired Term: January 28, 2018)

Mr. Lalla is currently the Manager in charge of Pension and Insurance Intermediary Supervision at the Central Bank of Trinidad and Tobago. A regulator for over 15 years, Mr. Lalla has had the very unique opportunity of managing each division of Supervision at the Central Bank, i.e. banking, insurance, pensions, intermediaries and market conduct.

This wide-ranging experience has placed Mr. Lalla as a key resource in many of the Bank's strategic objectives over the years, ranging from pension reform, to insurance reform, to Anti Money Laundering and the Combatting of Terrorist Financing and FATCA.

In addition to his membership on the Board of Directors of the Deposit Insurance Corporation of Trinidad and Tobago, Mr. Lalla is currently a member of the Council of Trustees of the Trinidad and Tobago Insurance Institute.

In the past, Mr. Lalla has held directorship positions at the Institute of Banking and Finance of Trinidad and Tobago and was a member of the inaugural executive of the Caribbean Association of Pensions Supervisors.

Nnika Eshe Watson

DIRECTOR

An experienced Attorney-at-Law, Nnika Eshe Watson has practiced in the areas of Public Law, Public Policy Development, Commercial and Company Law, Civil Litigation, Industrial Relations and Employment Law, Energy Law, Family Law, Child Protection Law and Criminal Justice Reform.

Ms. Watson is currently the Senior Legal Officer in the Office of the Treasury Solicitor, in which capacity she represents the Ministry of Finance in court and before other tribunals, in addition to advising the Ministry on complex legal matters. She is a Member of the Committee to Oversee the Implementation of the Public Procurement and Disposal of Public Property Act, 2015.

Ms. Watson began her legal career with Marie De Vere Chambers, following which she held the positions of State Counsel II, Ministry of Energy and Energy Affairs; State Counsel II, Ministry of Planning and the Economy; and then Legal Officer II with the Ministry of Justice. Previous to her current position, Ms. Watson worked as Senior Legal Associate with the Children's Authority of Trinidad and Tobago providing legal advice and guidance to the Authority's management on matters relating to children in need of care and protection.

Ms. Watson holds a Bachelor of Laws (Honours, Upper Second Division) from the University of the West Indies, Cavehill, Barbados and a Legal Education Certificate (Honours) from Hugh Wooding Law School. She was admitted to the Trinidad and Tobago Bar in 2007 and then to the Saint Lucia Bar in 2010.

Ms. Watson has served on the Legal Teams for Counsel for the Commission of Enquiry into the Construction Sector, St. Lucia (2009) and the Tribunal under Section 137 of the Constitution of Trinidad and Tobago to investigate the conduct of the Honourable Chief Justice (2007).

DEPOSIT INSURANCE FUND

Section 44K of the Central Bank Act Chapter 79:02 as amended by the Central Bank and Financial Institutions (Non-Banking) (Amendment) Act, 1986 provides for the establishment of the Deposit Insurance Fund. The Deposit Insurance Corporation is responsible for the management of the Fund which is to be used for the payment of deposit insurance claims if a member institution fails. Membership in the Fund is compulsory for all institutions that are licensed by the Central Bank of Trinidad and Tobago, under the Financial Institutions Act, 2008.

The balance on the Deposit Insurance Fund as at September, 2018 was \$3,302.70 million, an increase of 8 per cent year-on-year. The main sources of growth in the Fund were premiums and interest income (after expenses). The growth of the Fund over the past five years is illustrated in Chart I.

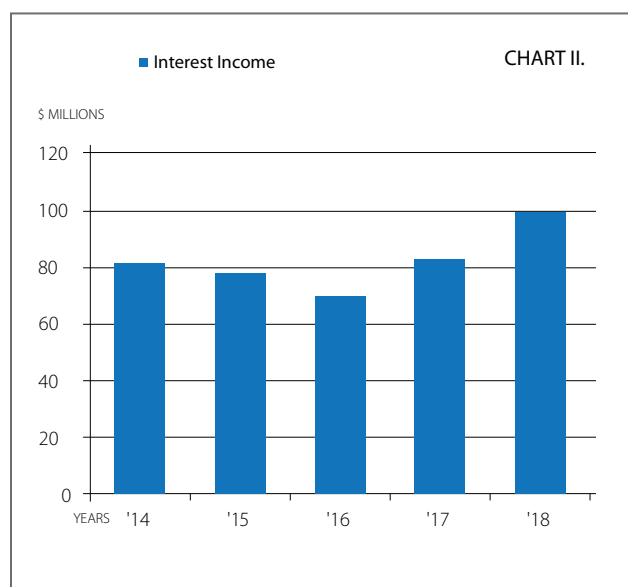

Net Income, which represents total income less operating expenses, for the financial year ended September 30, 2018 totaled \$253.3 million compared to \$238.9 million year-on-year. This represented an increase of \$14.4 million or 6 per cent more than the amount recorded for the 2017 financial year.

Total Income realised over the period amounted to \$271.1 million, an increase of \$17.2 million more than the amount recorded for the financial year ended September 30, 2017. The Total Expenses used to manage the Fund amounted to \$17.8 million; compared to \$15.0 million for the financial year ended September 30, 2017.

The two main contributors to income are Interest Earned and Annual Premiums. These two areas are examined below in greater detail.

INTEREST INCOME

Interest or investment income is generated by the Corporation's investment activity. During the financial year which ended September 30, 2018, the portfolio earned \$102.6 million compared to \$87.5 million in the previous financial year. Over the reporting period, market rates increased slightly when compared to the previous year. The average yield on short-term securities stood at 2.35 per cent at the end of the financial year. For long-term securities, the average yield was 4.22 per cent. Overall, the average yield on the investment portfolio for the financial year ended September 30, 2018 was 3.38 per cent compared to 3.39 per cent as at the previous financial year end. Chart II below illustrates the interest earned over the past five years.

ANNUAL PREMIUMS

The Corporation is mandated by law to levy each member institution and record contributions to the Deposit Insurance Fund. The first contribution is made six months after the institution acquires membership status (initial contribution). Another levy follows 12 months after admittance (first annual premium) and thereafter levies are made on institutions once annually, at the beginning of every calendar year (annual premium). Two Bye-Laws provide the basis on which the levy is to be made. The rate for the initial contribution, which must be matched equally by a contribution from the Central Bank of Trinidad and Tobago, is fixed at 0.4 per cent of the aggregate of the deposit liabilities. However, for the first and subsequent annual premiums, a fixed rate of 0.2 per cent of the aggregate of the deposit liabilities applies. The dates used in the computation are specified in the Bye-Laws.

Annual Premiums were levied on the 17 member (deposit-taking) institutions (note there are 7 member institutions which do not take deposits) and collected for the financial year ended September 30, 2018 amounting to \$163.06 million, a decrease of one per cent compared with \$164.4 million collected in 2017. Chart III below illustrates the growth of annual premiums over the past five years.

The change in annual premiums from 2017 to 2018 arose due to the decrease in the covered deposit liabilities of member institutions between the calendar years 2016 and 2017. (Annual Premiums are computed for a calendar year by applying a fixed rate to the quarterly average of the prior calendar year's aggregate deposit liabilities of each member institution). There were neither additions nor revocations to the Fund's membership over the reporting period and as such, the total number stood at 24 member institutions as at September 30, 2018.

INVESTMENTS

(a) Primary Investment Objectives and Approved Investment Categories

The Corporation has been given the power in the legislation under which it is governed, to "...accumulate, manage and invest funds collected". Under this provision, the Corporation's Board of Management has approved an Investment Policy which guides the Corporation's investment activities through specified investment objectives and approved investment categories.

The *primary investment objectives* for managing the portfolio of the Fund are as follows:-

(i) Maintenance of Capital Value

This requires that all investments be of a very high quality, in terms of the ability of the investee to meet its obligations to the Corporation and the legal arrangements which are in place to protect the Corporation as an investor.

(ii) Provision of an Adequate Liquidity Profile

Investment choices and the periods for which the investments are placed should be informed by potential, anticipated or contingent deposit insurance payouts, as well as, conditions operating in the banking and financial sectors. At present all investments held by the Corporation are readily realisable and convertible into cash.

(iii) Reasonable Growth of the Fund

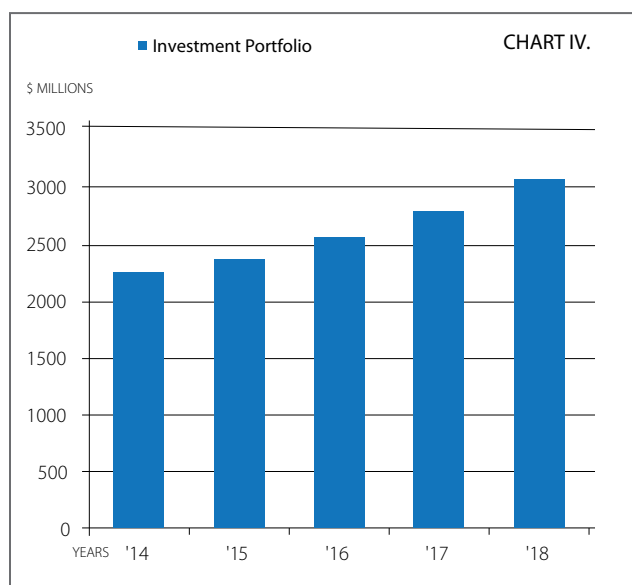

Although the best efforts should be made to grow the Fund, this should only be undertaken subject to the other two objectives described at (i) and (ii), above being satisfied. A standard of what would be considered reasonable is based on a margin above the risk free interest rate. The growth rate of the Fund is significantly guided by the two objectives at (i) and (ii) above.

The *approved investment categories* are as follows:-

- Deposits in Member Institutions and fixed income mutual funds (0-10 per cent of the portfolio).
- Corporate Securities (0-20 per cent of the portfolio).
- Trinidad and Tobago Government Securities (20-100 per cent of the portfolio).
- Foreign Investments (0-30 per cent of the portfolio).
- Equities (0-5 per cent of the portfolio).

(b) Status of the Investment Portfolio

The size of the investment portfolio as at September 30, 2018 was \$3,190.9 million; an increase of \$311.9 million or 11 per cent year-on-year. Chart IV below illustrates the growth of the investment portfolio over the past five years.

The mix of the investment portfolio as at September 30, 2018 and 2017 respectively was as follows:

INVESTMENT CATEGORY	% OF PORTFOLIO SEPTEMBER 30, 2018	% OF PORTFOLIO SEPTEMBER 30, 2017
² Deposits and MMFs	0.31	0.34
Corporate Securities	4.52	5.95
Government Securities	94.03	92.71
Equities	1.14	1.00

The average yield on the portfolio decreased marginally during the financial year to 3.38 per cent as at September 30, 2018 compared to 3.39 per cent one year prior. This slight decrease in yields was experienced in the corporate securities category of investments and was a reflection of maturities during the financial year.

Deposits

Within the financial year, deposit balances fell by \$0.1 million. The balance of deposits as at September 30, 2018 was \$9.7 million compared to \$9.8 million as at September 30, 2017. Deposits represented 0.31 per cent of the investment portfolio as at September 30, 2018.

² Deposits and MMFs represent deposits held in member institutions and money market investments held in the Trinidad and Tobago Unit Trust Corporation and the Home Mortgage Bank.

Corporate Securities

As at September 30, 2018 corporate securities stood at \$144.3 million compared to \$171.3 million one year prior; representing a reduction by \$27 million. The average yield on Corporate Securities decreased to 4.61 per cent as at September 30, 2018 from 4.70 per cent one year prior. Corporate securities represented 4.52 per cent of the investment portfolio as at September 30, 2018.

Government Securities

Approved instruments with respect to Trinidad and Tobago Government Securities, include Treasury Bills, Treasury Notes and Government Bonds.

Treasury Bills

As at September 30, 2018 Treasury Bills stood at \$772.7 million compared to \$205.1 million one year prior, representing an increase of \$567.6 million. The average yield on Treasury Bills decreased to 2.35 per cent as at September 30, 2018 from 2.39 per cent one year prior. Treasury Bills represented 24.22 per cent of the investment portfolio as at September 30, 2018.

Treasury Notes

As at September 30, 2018 holdings of Treasury Notes stood at \$536.1 million; down from \$804.1 million as at September 30, 2017. The average yield on Treasury Notes as at September 30, 2018 was 2.07 per cent; up from 1.98 per cent one year prior. Treasury Notes represented 16.8 per cent of the portfolio as at September 30, 2018.

Government Bonds

Holdings of Government Bonds increased over the period to \$1,691.7 million as at September 30, 2018, up from \$1,660.5 million one year prior, an increase of \$31.2 million. The average yield on Government Bonds increased to 4.22 per cent, up from 4.13 per cent year-on-year. As at the end of the financial year 2018, Government Bonds represented 53.2 per cent of the portfolio compared to 57.7 per cent as at September 30, 2017.

Equities

Within the financial year 2018, there were no additional purchases of Trinidad and Tobago National Gas Limited (TTNGL) shares. As at September 30, 2018 the total holding of TTNGL shares was 1.25 million shares at a fair market value of \$36.4 million. The market value as at September 30, 2017 was \$28.8 million. Equities represented 1.14 per cent of the portfolio as at September 30, 2018.

LIQUIDATION

Since its establishment, the Corporation has paid insurance claims to the depositors of nine institutions which were closed by the Central Bank of Trinidad and Tobago and classified as failed institutions. For each of these failures, the Corporation was appointed the liquidator by the High Court of Trinidad and Tobago. The most recent appointment has been the Corporation's appointment as Liquidator of CIB. This came into effect on October 17, 2011 when the High Court ruled that CIB be wound up under the provisions of the Companies Act, Chapter 18:01 and the DIC be appointed Liquidator of the company.

To date, three of the liquidations have been completed, while six institutions remain under the Corporation's purview. During the 2018 financial year, the Corporation focused on monetizing the assets of CIB and making a first interim dividend distribution to its remaining creditors.

INTERNATIONAL OUTREACH

During the fiscal year, the DICTT, in its role as the Executive Council Member, has continued to contribute to the governance of the International Association of Deposit Insurers (IADI), including participation in the organisation's three Executive Council Meetings (EXCOs) held in 2017-2018. The DICTT, which sits on three supporting Committees of the Executive Council, has also made important contributions to their specific remits:

- As a member of IADI's Audit & Risk Council Committee (ARCC) whose main objective is to monitor financial reporting processes and internal controls (including risk management systems) in furtherance of the Association's objectives and financial operations, the DIC participated in the review of quarterly reports and comparing the results against the budgets, the financial reporting process, and the internal controls ensuring the integrity of IADI's financial reports.
- As a member of Training & Technical Assistance Council Committees (TTAC) whose objectives include (i) overseeing the development of high-quality training and conference programs on effective deposit insurance systems and other issues relating to global financial stability; (ii) promoting and facilitating the sharing and exchange of expertise among Members, Partners and Associates and the dissemination of information through training, development and educational programs; and (iii) promoting the Association's recognition worldwide as an international standards setter on deposit insurance issues, the DICTT participated in the development of Guidelines for IADI Workshops and Knowledge Events; the strengthening of the IADI Technical Assistance Programme and increasing knowledge of, and compliance with, the Core Principles.
- As a Member of the Research and Guidance subcommittee of the Core Principles & Research, the DICTT played a role in the following: the publication, in January 2018, of a Research Paper on "Resolution Issues for Financial Cooperatives – Overview of Distinctive Features and Current Resolution Tools"; the completion of public consultation on "Deposit Insurance Fund Target Ratio" and; review and discussion of five other papers scheduled to be published in 2018/2019 on the following topics: purchase and assumption, recoveries from assets of failed banks, financial inclusion and innovation, public policy objectives, and deposit insurers' role in contingency planning and system-wide crisis preparedness and management.

From a regional perspective, the DICTT has been assiduously fulfilling its obligations as Chair for the Caribbean Region (CRC), raising its voice in the matters of Phase 2 of the IADI strategic plan and the implication for membership fees. We are also pleased to announce that The Dutch Caribbean Netherlands has applied to become a member of the IADI Caribbean Regional Committee (CRC), and the DICTT along with its regional partners looks forward to working with the Dutch Caribbean Netherlands as a new member in the near future.

The CRC also continues to maintain its cooperation with neighbouring

Regional Committees, namely, the Latin America Regional Committee and the North America Regional Committee, and jointly held the Third Americas Deposit Insurance Forums during the period under review.

In addition to IADI Executive Council meetings, regional members, including Bahamas, Barbados, British Virgin Islands, Jamaica and Trinidad and Tobago, continue to meet via teleconference and keep each other abreast of developments within their respective jurisdictional deposit insurance systems.

Building on its exposure and network in the international arena via its membership in IADI, DICTT conducted a Bank Resolution and Simulation Workshop in March 2018 through the US Department of Treasury Office of Technical Assistance in the USA. All members of the DICTT staff are now trained on the subject matter, and some 20 staff members of the Central Bank of Trinidad and Tobago (CBTT) and Ministry of Finance (MOF) were also trained. The programme facilitated increased interaction between the bank regulator, the MOF and the deposit insurer, which is considered a key prerequisite for financial stability in any financial jurisdiction.

The DICTT has also responded to requests from neighbour countries working to establish their own deposit insurance systems, liaising and cooperating with Guyana, which established the Deposit Insurance Corporation of Guyana in August 2018 and the Eastern Caribbean Central Bank who is also seeking to establish the deposit insurance system.

On a regional scale, the DIC participated in the CARICOM Technical Working Group on Deposit Insurance, which met during 2017/2018. There the DICTT along with its Caribbean counterparts reviewed the CARICOM proposal for a model deposit insurance system for CARICOM Member States. This document has been tabled before the Ministers of Finance (COPAB) and the Central Bank Governors of CARICOM Member States for further discussion.

It has been a busy and challenging year, and the DICTT is pleased to have made a significant contribution to the development and strengthening of the international and regional deposit insurance network, for the benefit of financial stability around the world.

Staff of the DIC collaborating with representatives from the Central Bank of Trinidad and Tobago and the Ministry of Finance at the Bank Resolution and Simulation Workshop hosted by the DIC in collaboration with the United States Department of the Treasury Office of Technical Assistance held over the period March 26th -29th , 2018, at the Hyatt Regency, Port of Spain, Trinidad.

THE DIC SPIRIT: MAKING CONNECTIONS!

Building a spirit of togetherness is critical to the success of the DIC. For that reason, the institution has placed significant focus on community outreach and team building activities which bring all members of the organisation closer together.

The spirit of volunteerism is alive and thriving at the DIC, and over the past year it has been exciting to see the staff join forces on two fronts: building stronger ties with each other and making a positive impact on our community. The year's team building and volunteer initiatives gave employees the opportunity to work collaboratively outside of the confines of the office, as they came together in pursuit of a common goal.

The first activity, in December 2017, was a visit by our employees to the L'Hospice Corpus Christi Carmel Home on Observatory Street, Port of Spain. The Hospice is home to senior residents and is maintained by the Carmelite Nuns. Our goal was to bring the holiday spirit to the residents of the Home, and we succeeded in every way! The DIC group served a delicious local menu for the residents and performed a sweet medley of traditional Christmas music; a perfect way to come together and spread joy and peace in the yuletide season.

February, 2018 saw our main team building exercise for the year. This took place outdoors at the La Vega Estate, a garden centre and nature park located in Gran Couva. Facilitated by Sunshine and Sonshine Sports, the activities were both challenging and fun! A combination of novel and traditional games improved communication amongst staff and built stronger relationships and greater trust amongst the group.

We kept the momentum going in June with a community outreach project that was great for team spirit and for the environment! This as our employees brought their considerable energy and enthusiasm to the Fondes Amandes Community Reforestation Project (FACRP) in St. Ann's Port of Spain. The FACRP is a community based agro-forestry project that was started in 1982 by a group of farmers living in Fondes Amandes Watershed. Its objective is to halt the degradation of the Fondes Amandes watershed through re-forestation.

The staff began the day with an educational session which explained the tremendous damage caused by forest fires, the

need for re-forestation, and the types of trees that can survive and thrive in tropical conditions. Then the real fun began! Each member of staff selected a tree that they wished to plant and hiked into the Fondes Amandes hillside to plant their selection. Great care was taken to find the perfect spot to ensure that each tree would flourish, and every member of the team ended the day with the knowledge that they had made a contribution towards re-forestation that would last a lifetime!

Our final activity for the year, in September, was another volunteer project, at Our Lady of the Wayside Halfway House for Children in Belmont, Port of Spain. The Home provides accommodation for abandoned or abused infants and children who are brought into its care by community police or social workers. The DIC staff worked in teams to undertake a number of activities to help organize the facilities at the Home, such as cleaning and clearing the library area, repairing the children's computers and electrical toys, and sanitizing and washing the toys and play area.

Coming together in the service of others has been a source of great pleasure and enjoyment for the staff of the DIC, it has been tremendously fulfilling, and has helped us all commit to each other and to the work we do.

Administrative Professionals and their respective Supervisors participate in a Clay Building Workshop in observance of Administrative Professionals Week on May 11, 2018 at Veronica's Pottery Studio located in Barataria.

COMMUNITY OUTREACH

Over the fiscal period, the DIC focused on deepening its corporate volunteer outreach programme so that staff could play a greater role in making a positive impact towards its local community and the environment. The initiatives provided staff with an opportunity to work collaboratively outside of the confines of the office with a view to working towards the achievement of a common goal. These activities were as follows:

December, 2017: Community Outreach

Staff visited the L'Hospice Corpus Christi Carmel Home on Observatory Street, Port of Spain. The Hospice is home to senior residents and is maintained by the Carmelite Nuns.

To bring holiday joy and cheer to the residents of the Home, staff prepared a delicious festive local cuisine which was complimented by a traditional Christmas musical rendition performed by staff that filled the atmosphere with the feeling of joy, cheer and peace that comes with the yuletide season.

February, 2018: Team Building

In February, 2018, the staff participated in an out-door team-building exercise at La Vega Estate, which is a garden centre and nature park located at Gran Couva. The team-building exercise was facilitated by Sunshine and Sonshine Sports.

Notwithstanding the inclement weather on that day, staff participated whole-heartedly in the activities that were fun-provoking and challenging.

COMMUNITY OUTREACH

February, 2018: Team Building (continued)

The variety of novelty and traditional games sought to not only enhance communication amongst staff but improve relationships and facilitate greater trust amongst employees.

The outdoor exercise was a great opportunity for staff to relax, enjoy the ambiance while at the same time connect with each other while having fun.

June, 2018: Community Outreach

In June, 2018, staff participated in an environmental community outreach project in which they visited the Fondes Amandes Community Reforestation Project (FACRP) located in St. Ann's Port of Spain.

The FACRP is a community based agro-forestry project that was initiated in 1982 by a group in of farmers living the in Fondes Amandes Watershed. Its main objective is to halt the degradation of the Fondes Amandes watershed through re-forestation.

Prior to engaging in the planned activities, staff were educated on the tremendous damage caused by forest fires, the need for re-forestation and the types of trees that can survive and thrive in tropical conditions.

Each staff member selected a tree that they wished to plant and then eagerly hiked the Fondes Amandes hillside to make their contribution towards re-forestation.

COMMUNITY OUTREACH

June, 2018: Community Outreach (continued)

The manner in which the trees were planted was done in a methodical fashion which included selecting the perfect area for the tree to be planted to allow for it to flourish and grow under adverse weather conditions.

September, 2018: Community Outreach

In September, 2018, the staff volunteered their services at Our Lady of the Wayside Halfway House for Children located in Belmont, Port of Spain.

The Home provides accommodation for infants and children who have been either abandoned or abused and are brought into the Home by either the community police or social workers.

On the day, staff worked in teams to undertake a number

of activities to help organize the facilities at the Home, such as cleaning and clearing the library area of clutter, fixing the computers and electrical toys for the children as well as sanitize and wash the toys and the children's play area.

In the end, the team felt a sense of fulfilment that they were able to contribute towards this worthy venture.

STATEMENT OF MANAGEMENT'S RESPONSIBILITIES

For the year ended September 30, 2018
(Expressed in Trinidad and Tobago Dollars)

Management, is responsible for the following:

- Preparing and fairly presenting the accompanying financial statements of Deposit Insurance Corporation (the "Corporation") which comprise the statement of financial position as at September 30, 2018, the statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements;
- Ensuring that the Corporation keeps proper accounting records;
- Selecting appropriate accounting policies and applying them in a consistent manner;
- Implementing, monitoring and evaluating the system of internal control that assures security of the Corporation's assets, detection/prevention of fraud, and the achievement of the Corporation's operational efficiencies;
- Ensuring that the system of internal control operated effectively during the reporting period;
- Producing reliable financial reporting that comply with laws and regulations; and
- Using reasonable and prudent judgement in the determination of estimates.

In preparing these audited financial statements, management utilised the International Financial Reporting Standards, as issued by the International Accounting Standards Board and adopted by the Institute of Chartered Accountants of Trinidad and Tobago. Where International Financial Reporting Standards presented alternative accounting treatments, management chose those considered most appropriate in the circumstances.

Nothing has come to the attention of management to indicate that the Corporation will not remain a going concern for the next twelve months from the reporting date; or up to the date the accompanying financial statements have been authorised for issue, if later.

Management affirms that it has carried out its responsibilities as outlined above.

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF DEPOSIT INSURANCE CORPORATION

Opinion

We have audited the financial statements of Deposit Insurance Corporation (the "Corporation"), which comprise the statement of financial position as at September 30, 2018 and the statement of comprehensive income, statement of changes in equity, and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Corporation as at September 30, 2018, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Corporation in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* ("IESBA Code") and we have fulfilled our ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent Auditor's Report (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes form an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

1. Establishment and principal activities

The Deposit Insurance Corporation (the “Corporation”) was established by the Central Bank and Financial Institutions (Non-Banking) (Amendment) Act, 1986 (Act No. 2 of 1986), which amended the Central Bank Act Chapter 79:02 (the Act).

The Corporation’s principal objective is to manage a Deposit Insurance Fund established by the Act to provide insurance coverage on deposits held with member institutions to a maximum of \$125,000 per depositor in each capacity and right in each institution. Membership of the Fund is compulsory for all institutions licensed under the Financial Institutions Act, 2008.

Section 44W of the Act authorizes the Corporation to take such action as it deems necessary to fulfil its mandate including levying premia and contributions from member institutions, hiring of staff, borrowing, lending, arranging for the restructuring of a failed member whether by merger with a financially sound member or otherwise and acquiring the undertaking of any member institution which is in financial difficulty. The Corporation may also act as receiver or liquidator of an insolvent member institution.

2. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) and are presented in Trinidad and Tobago dollars. These financial statements are prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Corporation’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

(i) New and amended standards adopted by the Corporation

There were no new IFRSs or IFRIC interpretations that are effective for the first time for the financial year beginning on or after October 1, 2017 that were adopted and had a material impact on the Corporation.

(ii) New standards, amendments and interpretations issued but not effective and not early adopted

The following new standards, interpretations and amendments, which have not been applied in these financial statements, will or may have an effect on the Corporation’s future financial statements in the period of initial application. In all cases the entity intends to apply these standards from application date as indicated in the note below.

- IFRS 9 Financial instruments - This new standard introduces new requirements for the classification, measurement and recognition of financial assets and financial liabilities and replaces parts of IAS 39. The standard is effective for annual periods beginning on after January 1, 2018 with early adoption permitted. IFRS 9 is required to be applied retrospectively. IFRS 9 uses business model and contractual cash flow characteristics to determine whether a financial asset is measured at amortized cost or fair value, replacing the four (4) category classification in IAS 39. The determination is made at initial recognition. The approach is also based on how an entity manages its financial instruments (its business model) and the contractual cash flow characteristics of the financial assets.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.1 Basis of preparation (continued)

- (ii) New standards, amendments and interpretations issued but not effective and not early adopted (continued)
- IFRS 9 Financial instruments (continued) - IFRS 9 uses an impairment model that is more 'forward looking' in that a credit event no longer has to occur before credit losses are recognised. For financial liabilities, the standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. The Corporation is yet to assess IFRS 9's full impact.
 - IFRS 15 Revenue from Contracts with Customers - An entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This means that revenue will be recognised when control of goods or services is transferred, rather than on transfer of risks and rewards as it is currently the case under IAS 18 Revenue. Furthermore the guidance significantly enhances the required qualitative and quantitative disclosures related to revenue. The main objective of the requirements is the disclosure of sufficient information in terms of the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In order to meet this objective, IFRS 15 requires specific disclosures for contracts with customers and significant judgements. The entity has not yet made a detailed assessment of the impact of this standard. This standard is effective for annual reporting periods commencing on or after January 1, 2018.
 - IFRS 16 Leases supersedes IAS 17 Leases and its related interpretations. IFRS 16 eliminates the classification by a lessee of leases as either operating or finance. Instead all leases are treated in a similar way to finance leases in accordance with IAS 17. Under IFRS 16, leases are recorded on the statement of financial position by recognising a liability for the present value of its obligation to make future lease payments with an asset (comprised of the amount of the lease liability plus certain other amounts) either being disclosed separately in the statement of financial position (within right-of-use assets) or together with property, plant and equipment. The most significant effect of the new requirements will be an increase in recognised lease assets and financial liabilities. However, entities have an option not to bring onto the statement of financial position short term leases (i.e. those with maturity of 12 months or less) and leases of low value items. IFRS 16 clarifies that a lessee separates lease components and service components of a contract and applies the lease accounting requirements only to the lease components. IFRS 16 applies to annual periods commencing on or after January 1, 2019.
 - IFRIC Interpretation 22 - Foreign Currency Transactions and Advance Consideration - IFRIC 22 addresses how to determine the date of transaction for the purpose of determining the spot exchange rate used to translate foreign currency transactions on initial recognition in circumstances when an entity pays or receives some or all of the foreign currency consideration in advance of the recognition of the related asset, expense or income.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.1 Basis of preparation (continued)

- (ii) New standards, amendments and interpretations issued but not effective and not early adopted (continued)

- IFRIC Interpretation 22- Foreign Currency Transactions and Advance Consideration - (continued) - The interpretation states that the date of the transaction, for the purpose of determining the spot exchange rate used to translate the related asset, expense or income (or part of it) on initial recognition, is the earlier of: (a) The date of initial recognition of the non-monetary prepayment asset or the non-monetary deferred income liability; and (b) The date that the asset, expense or income (or part of it) is recognised in the financial statements.

This interpretation is mandatory for annual periods beginning on or after January 1, 2018.

Other standards, amendments and interpretations to existing standards in issue but not yet effective are not considered to be relevant to the Corporation and have not been disclosed.

- (iii) Standards and amendments to published standards early adopted by the Corporation

The Corporation did not early adopt any new, revised or amended standards.

2.2 Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of the Corporation are measured using the currency of the primary economic environment in which the Corporation operates (the “functional currency”). The financial statements are presented in Trinidad and Tobago Dollars, which is the Corporation’s functional and presentation currency.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

Changes in the fair value of monetary securities denominated in a foreign currency classified as available for sale financial assets are analysed between translation differences resulting from changes in the amortised cost of the security, and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss; other changes in carrying amount are recognised in other comprehensive income.

Translation differences on non-monetary financial instruments such as equities classified as available for sale financial assets are included in other comprehensive income.

2.3 Comparative figures

Certain comparative figures were reclassified to facilitate the changes in presentation. These changes had no effect on the previously reported net income.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.4 Property and equipment

Depreciation

Items of property and equipment are stated at historical cost less accumulated depreciation. Depreciation is provided on a reducing balance basis at rates calculated to write off the cost of the assets over their estimated useful lives for all asset groups except buildings, building improvements, computer equipment and software. The method of depreciation on buildings, buildings improvements, computer equipment and software is the straight-line method. Land is not depreciated.

The rates used are as follows:

	Rate	Method
Buildings	2%	Straight line
Buildings improvements	2%	Reducing balance
Leasehold improvements	33 ¹ / ₃ %	Reducing balance
Motor vehicles	25%	Reducing balance
Furniture and fixtures	10%	Reducing balance
Office equipment	15%	Reducing balance
Computer equipment	25%	Reducing balance

No depreciation is charged in the year of disposal. However, a full year's charge is made in the year of acquisition.

The estimated useful lives, residual values and depreciation methods are reviewed at each reporting date.

Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property and equipment. All other expenditure is recognized in the statement of comprehensive income.

Disposal

Gains and losses on disposal of property and equipment are determined by comparing the proceeds with their carrying amounts and are recognized in statement of comprehensive income for the year.

2.5 Intangible assets

Computer software

Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Corporation are recognized as intangible assets in accordance with IAS 38 Intangible Assets. Costs associated with maintaining computer software programmes are recognized as expenses when incurred. Computer software costs recognized as assets are amortized over their estimated useful lives of four (4) years on a straight-line basis.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.6 Financial instruments

Financial instruments are contracts that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are recognized on the Corporation's statement of financial position when the Corporation becomes a party to the contractual provisions of the instrument.

(i) *Recognition and initial measurement*

A financial asset or financial liability is measured at fair value plus transaction costs that are directly attributable to its acquisition or issue, except for financial assets carried at fair value through profit or loss where transaction costs are expensed as incurred.

The Corporation initially recognises loans and receivables on the date when they are originated. All other financial assets and liabilities are initially recognised on the trade date i.e. the date at which the Corporation becomes a party to the contractual provisions of the instrument.

(ii) *Classification*

Financial assets

The Corporation classifies its financial assets into the following categories: held-to-maturity, available-for-sale, at fair value through profit or loss and loans and receivables. The classification is determined by management at initial recognition and depends on the purpose for which the instruments were acquired.

For the purpose of the financial statements, financial assets have been determined to include cash and all cash equivalents, investments, accounts receivable and liquidation advances recoverable.

(a) *Financial assets at fair value through profit or loss*

A financial asset is classified into the 'financial assets at fair value through profit or loss' category if acquired principally for the purpose of selling in the short term, if it forms part of a portfolio of financial assets in which there is evidence of short-term profit-taking, or if so designated by management.

(b) *Loans and receivables*

Loans and receivables include financial assets with fixed or determinable payments that are not quoted in an active market, do not qualify as trading assets and have not been designated as available-for-sale. Accounts receivable and liquidation advances recoverable are classified as loans and receivables.

(c) *Held-to-maturity financial assets*

Held-to-maturity assets are financial assets with fixed or determinable payments and fixed maturity that the Corporation's management has the positive intent and ability to hold to maturity. These include all debt investments.

Interest on held-to-maturity investments is included in net income and is reported as investment income.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.6 Financial instruments (continued)

(ii) Classification (continued)

Financial assets (continued)

(d) Available-for-sale financial assets

Available-for-sale investments are financial assets that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices or that are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Financial liabilities

A financial instrument is classified as a financial liability if it is a contractual obligation to deliver cash or another asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the reporting entity's own equity instruments under certain circumstances.

The Corporation classifies its financial liabilities as measured at amortized cost. Financial liabilities include accounts payable and balance due to Central Bank.

(iii) Measurement

After initial recognition available-for-sale financial assets and financial liabilities at fair value through profit or loss are measured at fair value with unrealized gains and losses recognized in Other Comprehensive Income (OCI) or profit or loss respectively. Held to maturity investment and loans and receivables are subsequently measured at cost or amortized cost using the effective interest method, less provisions made for any permanent diminution in value.

Financial liabilities are re-measured at amortized cost using the effective interest rate method.

(iv) De-recognition

Financial assets

The Corporation derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Corporation neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and the sum of:

- (i) the consideration received (including any new asset obtained less any new liability assumed); and
- (ii) any cumulative gain or loss that had been recognized in OCI.

Any interest in transferred financial assets that qualify for de-recognition that is created or retained by the Corporation is recognized as a consolidated asset or liability in the statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.6 Financial instruments (continued)

(iv) *De-recognition (continued)*

Financial liabilities

The Corporation derecognizes a financial liability when its contractual obligations are discharged, or cancelled, or expired.

(v) *Offsetting*

Financial assets and liabilities are offset, and the net amount presented in the statement of financial position when, and only when, the Corporation has a legal right to set off the recognised amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS, or for gains and losses arising from a group of similar transactions such as in the Corporation's trading activity.

(vi) *Amortized cost measurement*

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

(vii) *Determination of fair value*

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Corporation has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Corporation measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Corporation uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price - i.e. the fair value of the consideration given or received. If the Corporation determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognized in net income on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.6 Financial instruments (continued)

(vii) *Determination of fair value (continued)*

The Corporation recognizes transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred. No transfers have occurred during the year.

(viii) *Impairment of financial assets*

The Corporation assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired.

A financial asset or group of financial assets is impaired and impairment losses are incurred if and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a “loss event”) and that event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Objective evidence that a financial assets or group of financial assets is impaired includes observable data that comes to the attention of the Corporation about the following loss events:

- Significant financial difficulty of the issuer or obligor.
- A breach of contract, such as default or delinquency in interest or principal payments.
- It becoming probable that the borrower will enter in bankruptcy or other financial reorganization.
- The disappearance of an active market for that financial asset because of financial difficulties.
- Observable data indicating that there is a measurable decrease in the estimated cash-flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with individual financial assets in the group, including adverse changes in the payment status of borrowers in the Corporation or national or economic conditions that correlate with defaults on assets in the Corporation.

The Corporation first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant. If the Corporation determines that no objective evidence of impairment exists for an individually assessed financial asset, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.6 Financial instruments (continued)

(viii) Impairment of financial assets (continued)

Impairment losses are recorded in an allowance account and are measured and recognized as follows:

- *Financial assets measured at amortized cost*

The difference between the assets' carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate is recognized in the profit or loss

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as improvement in the debtor's credit rating), the previously recognized loss is reversed to the extent that the carrying amount of the financial asset does not exceed what the amortized cost would have been had the impairment not been recognized at the date that the impairment is reversed. The amount of the reversal is recognized in the profit or loss.

- *Financial assets measured at cost*

The difference between the assets' carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the current market's rate of return for similar financial assets is recognized in the profit or loss. These losses are not reversed.

2.7 Other assets

Other assets are generally measured at amortised cost.

2.8 Cash and cash equivalents

Cash and cash equivalents consist of highly liquid investments with original maturities of three months or less and are carried at cost, which approximates market value.

2.9 Provisions

Provisions are recognized when the Corporation has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

2. Significant accounting policies (continued)

2.10 Revenue recognition

Revenue is recognized when it is probable that the economic benefit will flow to the Corporation and the amount of the revenue can be measured reliably.

(i) *Premium income*

Premium income is recognized on the accruals basis. Annual premia in respect of a given year are paid on the basis of a rate of 0.2 per centum of the average deposit liabilities existing at the end of each of the quarters in the preceding calendar year, except that for a new institution the first year's levy is based on its average deposit liabilities existing in the first year of operation.

(ii) *Investment income*

Investment income is accrued on the time basis by reference to the principal outstanding and the interest rate applicable under the effective interest rate method.

The 'effective interest rate' is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial assets or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability and is not revised subsequently. When calculating the effective interest rate, the Corporation estimates the future cash flows considering all contractual terms of the financial instrument, but not the future credit losses.

The calculation of the effective interest rate includes all fees paid or received, transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability.

2.11 Levy of initial contributions

All institutions are required to pay an initial contribution on becoming members, and annual premia in subsequent years. Initial contributions paid by member institutions are matched by the Central Bank (Central Bank Act, Section 44M).

The payment of initial contributions is based on a rate of 0.4 per centum of the average deposit liabilities existing at the end of the first and second quarters of the first twelve (12) months of operation.

2.12 Expenses

Staff costs, and general and administrative expenses are generally recognised on an accrual basis.

2.13 Pensions

The Corporation maintains a voluntary contribution plan for its employees. This is a funded scheme and the Corporation's contributions are charged in the profit or loss for the year as incurred.

2.14 Exemption from the provisions for taxation and insurance legislation

The Corporation is exempt from the provisions of any Act relating to income taxation or corporation taxation, from payment of stamp duty and is also exempt from the provisions of the Insurance Act 1980, [Section 55 (1) and (2)].

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

3. Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Corporation makes estimates and assumptions concerning the future.

However, actual results could differ from those estimates as the resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Changes in accounting estimates are recognized in the profit or loss in the period in which the estimate is changed, if the change affects that period only, or in the period of the change and future periods if the change affects both current and future periods.

The critical judgements, apart from those involving estimations, which have the most significant effect on the amounts recognized in the financial statements, are as follows:

- (i) Whether investments are classified as held-to-maturity investments, available-for-sale or loans and receivables.
- (ii) Whether leases are classified as operating leases or finance leases.
- (iii) Which depreciation method for property and equipment is used and in determining whether future economic benefits can be derived from expenditures to be capitalized.
- (iv) Whether the Deposit Insurance Fund is adequate to meet unexpected loss from non-viability or insolvency of a policy holder.

The key assumptions concerning the future and other key sources of estimation uncertainty at the statement of financial position date (requiring management's most difficult, subjective or complex judgements) that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

(i) Impairment of assets

Management assesses at each reporting date whether assets are impaired. An asset is impaired when the carrying value is greater than its recoverable amount and there is objective evidence of impairment. Recoverable amount is the present value of the future cash flows. Provisions are made for the excess of the carrying value over its recoverable amount.

(ii) Property and equipment

Management makes certain assumptions regarding the useful lives and residual values of capitalized assets.

(iii) Determining fair values using Valuation Techniques

The determination of fair values for financial assets for which there is no observable market price requires the use of valuation techniques which utilizes various degrees of judgements affecting the specific investment.

4. Assets under administration

The Corporation serves as liquidator for six (6) failed non-banking financial institutions. These companies and their year of liquidation are as follows:

• Commercial Finance Corporation Limited (in liquidation)	1986
• Trade Confirmers Limited (in liquidation)	1986
• Swait Finance Limited (in liquidation)	1986
• Caribbean Mortgage and Funds Limited (in liquidation)	1991
• Principal Finance Corporation Limited (in liquidation)	1993
• CLICO Investment Bank Limited (in compulsory liquidation)	2011

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

4. Assets under administration (continued)

In its role as liquidator, the Corporation is engaged in liquidating the assets of these failed institutions in an attempt to settle the outstanding liabilities associated with these institutions.

The Corporation submits reports every six (6) months to The Official Receiver (High Court) providing details of receipts and payments for the period being reported. Lastly, these liquidations have not as yet been wound up due to legal matters before the Courts.

The statement of financial position does not include the assets of these closed financial institutions under the administration of the Corporation. However, the table presented hereunder provides in summary, the balances as at September 30, 2018. In relation to the table, the following points should be noted:

- (A) - The assets at closure are reported at net realizable value representing a reasonable estimate of the amount for which the assets could have been sold.
- (B) - Total realizations represent the amount received to date from the sale of liquidated assets.
- (C) - The liabilities at closure represent the total amount owing by the failed institutions, inclusive of deposit liabilities, as at the date of closure.
- (D) - Liabilities incurred represent liquidation expenses from the date of closure up to the end of the reporting period.
- (E) - Total payments represent liquidation expenses paid and insurance payments recovered as at the reporting date.
- (F) - Remaining liabilities represent the balance due to unsecured creditors as at the reporting date.
- The legislation authorizes the Corporation to recover insurance paid from the sales proceeds of liquidated assets in priority to unsecured creditors.

	2018 \$'000	2017 \$'000

9. Share Capital

The Corporation is a statutory body, the authorized and issued capital of which is fixed by the Central Bank Act Chapter 79:02 in the amount of \$1,000,000. However, an increase may be approved by the Minister to whom the responsibility for finance is assigned.

10. Related party balances

A party is related to the Corporation if:

- (a) The party is an associate of the Corporation;
- (b) The party is, directly or indirectly, either under common control with the Corporation or has significant or joint control over the Corporation;
- (c) The party is a close family member of a person who is part of key management personnel or who controls the Corporation;
- (d) The party is controlled or significantly influenced by a member of key management personnel or by a person who controls the Corporation;
- (e) The party is a joint venture in which the Corporation is a venture partner;
- (f) The party is a member of the Corporation's or its parent's key management personnel;

Significant aspects of the relationship between the Corporation and the Central Bank of Trinidad and Tobago (the Central Bank) are as follows:

- (a) Capital contribution

The paid-up capital has been contributed entirely by the Central Bank.

- (b) Representation on the Board of Management (Section 44Q (1) (a))

Two members represent the Central Bank on the Board of Management of the Corporation.

	2018 \$'000	2017 \$'000

Investments held with the Government of Trinidad and Tobago are disclosed in Note 6. Also, cash held with the Central Bank of Trinidad and Tobago is disclosed in note 8.

11. Retirement benefit

The Corporation does not operate a pension plan, but a non-compulsory arrangement exists whereby the Corporation contributes 150% of an employee's contribution to an approved individual annuity or the Individual Retirement Unit Account of the Trinidad and Tobago Unit Trust Corporation up to a maximum of 10% of an employee's base salary. Costs incurred during the year ended September 30, 2018 were \$384,823 (2017: \$341,017).

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

14. Financial Risk Management

Financial risk factors

The Corporation is exposed to interest rate risk, credit risk, liquidity risk, currency risk, operational risk, compliance risk and reputation risk arising from the financial instruments that it holds. The risk management policies employed by the Corporation to manage these risks are discussed below:

(a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Corporation is exposed to interest rate risk through the effect of fluctuations in the prevailing levels of interest rates on interest bearing financial assets and liabilities, including investments in bonds and other funding instruments.

The exposure is managed through the matching of funding products with financial services and monitoring market conditions and yields.

(i) Bonds

The Corporation invests mainly in medium to long term bonds consisting of both floating rate and fixed rate instruments.

The market values of the floating rate bonds are not very sensitive to changes in interest rates. The market values of the fixed rate bonds are sensitive to changes in interest rates. The longer the maturity of the bonds, the greater is the sensitivity to changes in interest rates. Because these assets are being held to maturity and are not traded, any changes in market values will not impact net income.

The Corporation actively monitors bonds with maturities greater than ten years, as well as the interest rate policies of the Central Bank of Trinidad and Tobago.

(ii) Interest rate sensitivity gap

The Corporation's exposure to interest rate risk is summarized in the table below, which analyses assets and liabilities at their carrying amounts categorized according to their maturity dates.

	Effective Rate %	Up to One Year \$'000	Two to Five years \$'000	Over Five years \$'000	Non-Interest Bearing \$'000	Total \$'000
Year ended September 30, 2018

The Corporation is not subject to significant interest rate changes as interest rates are fixed on held-to-maturity investments. Therefore, changes in interest rates will not have a significant impact on the Corporation.

(b) Credit risk

Credit risk arises when a failure by counter parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the reporting date.

Cash balances are held with high credit quality financial institutions and the Corporation has policies to limit the amount of exposure to any single financial institution.

The Corporation also actively monitors global economic developments and Government policies that may affect the growth rate of the local economy.

The Corporation's maximum exposure to credit risk is represented by amounts included for investments, liquidation advances recoverable, accounts receivables and cash and cash equivalents on the statement of financial position.

(c) Liquidity risk

Liquidity risk is the risk that the Corporation is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence maybe the failure to meet obligations to fulfil claims and other liabilities incurred. An unmatched position potentially enhances profitability but can also increase the risk of losses. The Corporation has procedures with the object of minimizing such losses such as maintaining sufficient cash and other highly liquid current assets and by having available an adequate amount of committed credit facilities.

The Corporation is able to make daily calls on its available cash resources to settle financial and other liabilities. The Corporation's liabilities at the reporting date are due within the next six months and are not considered material for disclosure purposes.

14. Financial Risk Management (continued)

Financial risk factors (continued)

(d) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognized assets and liabilities are denominated in a currency that is not the Corporation's measurement currency. The Corporation is exposed to foreign exchange risk arising from various currency exposures primarily with respect to the United States Dollar. The Corporation's management monitors the exchange rate fluctuations on a continuous basis and acts accordingly.

The Corporation's net exposure to currency risk is as follows:

	2018	2017
	\$'000	\$'000
United States Dollars	207	232

(e) Price risk

Price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instruments or its issuer or factors affecting all investments traded in the market. The Corporation has no significant exposure to other price risk.

(f) Operational risk

Operational risk is the risk derived from deficiencies relating to the Corporation's information technology and control systems, as well as the risk of human error and natural disasters. The Corporation's systems are evaluated, maintained and upgraded continuously. Supervisory controls are also installed to minimize human error.

(g) Compliance risk

Compliance risk is the risk of financial loss, including fines and other penalties, which arise from non-compliance with laws and regulations of the state. The risk is limited to a significant extent due to the supervision applied by the Central Bank of Trinidad and Tobago, as well as by the monitoring controls applied by the Corporation.

(h) Reputation risk

The risk of loss of reputation arising from the negative publicity relating to the Corporation's operations (whether true or false) may result in a reduction of its clientele, reduction in revenue and legal cases against the Corporation. The Corporation engages in public social endeavors to engender trust and minimize this risk.

(i) Capital Management - Adequacy of the Deposit Insurance Fund

The Corporation's capital comprises share capital and the Deposit Insurance Fund (DIF). The Corporation is not subject to externally imposed capital requirements, and there were no changes in what the Corporation considers as capital, and management of capital was performed on a basis consistent with that of prior years. The key mechanisms used to manage the level of capital are premium assessments and borrowings, if necessary.

The Corporation's principal objective is to establish and manage a scheme for the insurance of deposits, or part thereof, held by Policyholders against the risk of loss of deposits up to a maximum of \$125,000 per depositor, in each right and capacity, in each institution.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

14. Financial Risk Management (continued)

Financial risk factors (continued)

(i) Capital Management - Adequacy of the Deposit Insurance Fund (continued)

As at September 30, 2018, there were 24-member institutions with total eligible deposits estimated at \$82.1 billion (2017: \$82.5 billion), of which the Corporation covered at a flat rate of 0.2% (2017: 0.2%). The adequacy of the DIF will be based primarily on the assessed risk posed by Policyholders. In relation to its insurance obligations, the Corporation's main exposure is to unexpected loss from the non-viability or insolvency of a Policyholder that is not readily estimated due to the unavailability of data on specific loss experience.

If a Policyholder's future viability or solvency is deemed to be at risk or the Policyholder becomes insolvent and the DIF is required to intervene by providing financial assistance or pay out depositors in accordance with its resolution powers under the Act, and if the DIF is insufficient to meet the obligation, the Corporation has the power to borrow, as well as, with the approval of the Minister of Finance, prescribe the levying of additional premiums payable by Policyholders.

15. Fair value of financial instruments

The fair value of financial assets and liabilities that are traded in active markets are based on quoted market prices or dealer quotations. For all other financial instruments, the Corporation determines fair values using other valuation techniques.

(a) Valuation models

The Corporation's accounting policy on fair value measurements is discussed in accounting policy 2.6 (iii).

The Corporation measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.

Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

There were no transfers of financial instruments between levels during the year, neither were there any changes in the categorization from the prior year.

NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2018

15. Fair value of financial instruments (continued)

(b) Financial instruments measured at fair value - fair value hierarchy

At year end, the following financial instruments were measured at fair value.

	Level1 \$'000	Level2 \$'000	Level3 \$'000
As at September 30, 2018			
Investments - equities	36,350	-	-
As at September 30, 2017			
Investments - equities	28,794	-	-

The following financial instruments were not measured at fair value.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Fair Value \$'000	Carrying Amount \$'000
As at September 30, 2018					
Held-to-maturity investments	-	2,764,603	-	2,764,603	3,150,028
As at September 30, 2017					
Held-to-maturity investments	-	2,549,157	-	2,549,157	2,845,925

As at the reporting date, the fair value of the held-to-maturity investments is below the carrying amount. However, management has deemed that no further impairment is required as the issuers of these investments are meeting their obligations and continue to have a good credit rating with the market.

16. Classification of Financial Assets and Financial Liabilities

The following table provides reconciliation between line items in the statement of financial position and the categories of financial instruments

	FVOCI Equity \$'000	FVTPL \$'000	Amortised Cost \$'000	Total \$'000
Year ended September 31, 2018				
Assets				
Cash and cash equivalents	-	-	66,502	66,502
Investments	36,350	-	3,150,028	3,186,378
Liquidation advances recoverable	-	-	852	852
Accounts receivable	-	-	39,032	39,032
Total financial assets	36,350	-	3,256,414	3,292,764
Liabilities				
Balance due to Central Bank	-	-	3	3
Accounts payable	-	-	1,221	1,221
Total financial liabilities	-	-	1,224	1,224
	Equity \$'000	FVTPL \$'000	Cost \$'000	Total \$'000
Year ended September 31, 2017				
Assets				
Cash and cash equivalents	-	-	118,754	118,754
Investments	28,794	4,284	2,841,641	2,874,719
Liquidation advances recoverable	-	-	947	947
Accounts receivable	-	-	37,877	37,877
Total financial assets	28,794	4,284	2,999,219	3,032,297
Liabilities				
Balance due to Central Bank	-	-	1	1
Accounts payable	-	-	2,247	2,247
Total financial liabilities	-	-	2,248	2,248

17. Subsequent events

Management has evaluated the possibility of subsequent events existing in the Corporation's financial statements from October 1, 2018 through December 13, 2018, the date the financial statements were available to be issued. Management has determined that there are no material events that would require adjustment or disclosure in the Corporation's financial statement.
